

Snell  
Academy

## Kahuna Operations, Level 2

Course Code: SA SWKA 002

Duration: 2 days

Who's it for?: Technical Directors,  
Vision Mixers, Editors

Location: Snell Academy or on-site

Maximum number: 3 delegates

**Additional Information:** Delegates will receive all related documentation on CDROM or USB, including any relevant software tools, presentations and handbooks.

For courses held at Snell Academy sites, all lunches and refreshments are included.

All Snell Academy courses can be tailored to meet your specific needs. Please contact [snellacademy@snellgroup.com](mailto:snellacademy@snellgroup.com) for more information.

**Pre-requisites:** Delegates should have completed Kahuna Operations Level 1 (SA SWKA 001) prior to enrolling on this course.

**Course Outline:** This course is for advanced Kahuna operators. It covers advanced timeline, macro set-up & editing, 3D DVE operation & programming and import/export of stills & clips. It enables the user to operate the Kahuna to a high standard making full use of the various features.

**Approach:** The course includes a presentation, live demonstration and hands-on exercises.

**Objectives:** By the end of this course the delegate will be able to:

- Feel confident with operating the Kahuna and understanding the system.
- Build both simple and complex timelines.
- Explain thoroughly how macros work and how to use them.
- Create complex 3D DVE effects.
- Demonstrate how to use the Kahuna.

### Detailed Agenda:

- Import/Export of stills & clips.
- External device control (Protocols).
- Loading & use of pre-stored DVE effects.
- 3D DVE operation & programming.
- Use of Aux bus facilities.
- Set-up of key macro sequences.
- Editing macro sequences.
- Simple timeline creation.
- Advanced timeline editing and macro insertion.
- DVE timeline creation.
- General overview.
